AFFAIRS IN BROOKLYN.

TO BEGIN STREET-CLEANING AT ONCE. Street-cleaning will be resumed at once if the fine weather lasts. Alfred T. White, City Works Commissioner, has written to Dr. Emery, Health Commissioner, suggesting that the charter provides that the Mayor may issue an order for streetcleaning, the money to be appropriated from the Emergency Fund, when it is necessary to prevent the spread of disease or to preserve public health.

Dr. Emery wrote to the Mayor as follows: "I have the honor to advise you that the season of early spring, which is now upon us, when the p. m. winter is breaking up and ice and snow are melting in the streets, the citizens of Brooklyn are, in the judgment of this department, peculiarly exposed to danger from collections of dirt, fifth and any to danger from collections of dirt, fifth and any kind of rubbish on the streets, and that especially this year the preservation of the public health imperatively requires the immediate and rapid cleaning of as many of the streets as possible.

Under this Commissioner White asked the Mayor for \$5,000 to begin the work and carry it on until the Aldermen appropriate funds for the work. Mr. White has been assured by several Aldermen that the failure to appropriate the money for the purpose of street-cleaning on Monday was an oversight, and there is no doubt that Mayor Schieren will grant the order at once.

the Supreme Court.

Judge Beach became much wrought up. "This act," said he, "is the trick of a lawyer committed to deceive this Court, and that letter was written with the same purposes and intents. I need not characterize it further than to say that it was the attempt of a party or parties to deceive a judge of this court. The complaint is dismissed. You may take a default, Mr. Serisher, and if the plaintiff applies te any other judge of this court.

When seen yesterday morning Judge Newburger said: "There was nothing unusual in what i did. It is our custom here to impanel juries in advance of the trial of actions. I did impanel the jury in Mr. Levy's case in the morning, and notified the other jurors in attendance that they were excused for the day, as I intended to take up but one other case besides the one then before me. There was nothing unusual in what i did for the day, as I intended to take up but one other case besides the one then before me. Some time ago Jacques, while president of the company, obtained two accommodation notes from the Chatham National Bank, one for \$1,500, and the other for \$2,600. These notes had for security chattel mortgages on clocks and other property in the establishment of the company. Mr. Jacques says that the directors of the company gave him authority to make these arrangements. On the other hand the complainants say that he exceeded his authority and injured the corporation by fraudulently issuing evidence of debt. The stockholders deposed Mr. Jacques from the presidency on March 2. The managing directors have been cited to show cause why a receiver should not be appointed for the company. William J. Gibson appeared for the defendant and secured postponement of examination until Saturday morning. The prisoner was put under ball of \$2,000.
